Important Information

Individual certificates can be earned within a one year period, but you will have up to two years to complete all hours. Earning additional certificates can begin at the conclusion of the first two-year period or completion of the first certification. You will have one year to complete each additional certificate.

You are required to take one of our two grantwriting courses (basic or advanced) for the fundraising certificate. If you choose to attend our all-day Legal and Accounting summit in the fall, an extra \$75 will be charged. If other, more costly workshops are added to our roster because we have unforeseen opportunities, there may be additional charges if you elect to take those courses. We have plenty of workshops planned that will allow you to stay at the published bundled price point.

If after earning one certificate you decide to earn a second or third, you will be charged the bundled-price difference if you pay up-front.

Workshops taken outside your chosen certification track(s) will not be discounted in price and will not count toward the certificate.
